

The NJ Do Not Call list has brought peace to my house. I pay for my phone service! Solicitors should not be calling me, harassing me and my family constantly, while I foot the bills. I do not want solicitors calling my house, ever! Telemarketers invade my privacy, create undo stress, and I will never buy anything from them! Do not try to overturn NJ's Do Not Call legislation! If you want to let these people call someone, have them call you.
